

Partnership - Chrystelijke Agrarische Hogeschool

Dronten Professional Agricultural University offers courses amongst others in Business Administration, Agribusiness, Rural Development, EU Studies and Structural Funds Management.

Having experience in education of professionals in Rural Development, Agribusiness and Business administration the CAH Dronten is particularly interested in development of courses for animator of regional/local development. CAH

Dronten takes part in the project activities such as:

- development of curricula for new professions relating to the rural/local development,
- testing the programme for animator of regional/local development,
- consultancy, advisory and participation in the quality system development,
- analysis of the labour market,
- management of the project, the results dissemination and networking development.
