

Partnership - Gobierno Vasco, Departamento de Industria Comercio y Turismo

Gobierno Vasco, Departamento de Industria Comercio y Turismo (DICT) is the part of public administration at the Basque Country, responsible for the R&TD policy creation and implementation.

It has been committed to a long-term policy of promoting Quality as a strategic element for the creation of a different competitive advantage. The DICT has a wide experience in the public-aid projects, as well as in organising and co-financing doctoral studies and research practical placements for industrial employees. The DICT is permanently carrying out research of the labour market and closely cooperates with: Regional Network for Science Technology and Innovation (SARETEK), CIFAL Bilbao Center under the auspices of CIFAL Programme (International Training Center for Local Actors) of United Nations Institute for Training and Research (UNITAR) as well as Pais Vasco universities.

The DICT takes part in the following project activities:

- consulting, advise and assistance in the designing of teaching/training programmes for economic animator,
- analysing the local labour market and fostering interregional partnership, in particular as far mobility of experts, trainers, learners and employees is concerned,
- promotion, dissemination and implementation of the project results amongst Spanish VET organisation especially Pais Vasco universities, with help of SARETEK, UNITAR and CIFAL Bilbao Center,
- participation in management of the project, dissemination activities and networking development.
