

Project informations - Aim of the project

The specific aim of the project is the development of the three teaching programmes for postgraduate studies in the following areas:

- Animating technological development,
- Animating regional/local development,
- Animating entrepreneurship.

The programme for animator of technological development is addressed to: graduates of technology/engineering profile, including managers and employees changing their qualifications or upgrading them, the unemployed graduates. The programme for animator of regional/local development is addressed to: graduates of different profiles, employees changing their qualifications or upgrading them, staff of regional/local government offices and centres supporting entrepreneurship and innovations, unemployed graduates. The programme for animator of entrepreneurship is addressed to: undergraduates and graduates willing to start-up their own businesses and entrepreneurs. The above-mentioned programmes are being developed on the basis of the results of the demand analysis for economic animators in participating partner regions. It is planned to test new programmes by particular project partners, to evaluate the results of their implementation and to modify them according to the educational demand in particular region. In order to ensure high quality of the project products a system of monitoring and evaluating the project's results will be created. Dissemination activities will include and engage all groups of interest from the very beginning of the project.
