

Partnership - The role of partners

Project partners represent various institutions, such as universities, training centres, regional authorities, organisation of employers and entrepreneurs and society of engineers.

Educational units will participate in developing and testing particular educational programs. The remaining partners will be engaged in carrying out analyses of demand for economic animators in partner regions, the cooperation in the development of programs and organising pilot trainings.

All partners will take active part in the management of the project and the dissemination of its results through the participation in the appointed managing structure.
